

# Using inugo - Open lot parking

**1.** Once you have driven into the open lot, open the inugo App.

**2.** The inugo App will recognise which lot you are in, and auto-open the Parking Selection screen. Choose your parking timeframe and license plate, and click **Start Parking**.

**3.** You will be shown a confirmation screen - select **Accept charges** if the information is correct.

**4.** A live update screen will be shown, with how much you have paid, how long you have been parking and how long you have remaining. You can add or subtract parking time from this screen at any time with the **+ -** buttons. You can also end your session at anytime, under **Show parking options**.

**5.** Once your selected time has run out, your parking will auto-expire and a summary screen will be shown. Your receipt will be emailed to you.
